Yacht Services

Details of the services offered by the Yacht & Small Craft Services Department of Lloyd's Register regarding the survey of new yachts during construction as well as the survey of existing yachts may be obtained from

Lloyd's Register of Shipping,
Yacht & Small Craft Services Department,
71 Fenchurch Street, London, EC3M 4BS, England.

Lloyd's Register of Classed Yachts

This publication contains full particulars of yachts currently holding Lloyd's Register's Class together with records of periodical surveys carried out.

Lloyd's Register's Classification and Certification of Yachts and Condition Surveys

Classification

Just as the world-famous **100A1** classification symbol indicates that a modern passenger liner, or a giant supertanker, has been built to the exacting requirements of Lloyd's Register's rules, so the same symbol is available to the individual yacht owner. Classification is open to all types of yachts provided the constructional details conform to the requirements laid down by Lloyd's Register.

Yachts built in accordance with Lloyd's Register's rules for wood, steel and aluminium alloy or glass reinforced plastic will be classed **100A1** or class **R**.

An owner desiring classification should, when ordering a new yacht, specify that the yacht be built to Lloyd's Register class. The builder will then, through the designer, become responsible for submitting the necessary plans for Lloyd's Register's approval, and will request a special survey during construction in accordance with Lloyd's Register's requirements, so that the appropriate class may be assigned on completion.

Premises of moulders and builders of yachts must be inspected to ensure that management and facilities are capable and satisfactory to mould/build hulls to the standard required by Lloyd's Register for classification or Lloyd's Register Building Certificate.

For maintenance of classification, periodical surveys and repairs are carried out under the supervision of Lloyd's Register of Shipping Surveyors; such a procedure helps to keep a yacht in a high state of efficiency and to preserve her sale value, in addition to the benefit of having a competent, independent and experienced organization to safeguard the owner's interest. A record of each periodical survey is made in the *Register of Classed Yachts*.

Lloyd's Register Building Certificate (LRBC)

As an alternative to classification, Lloyd's Register will provide a Lloyd's Register Building Certificate to newly constructed yachts which have been built of approved material in accordance with Lloyd's Register's *Rules and Regulations for the Classification of Yachts and Small Craft*, under the supervision of the Lloyd's Register's Surveyors, without the requirements of mandatory periodical surveys thereafter.

Plans of hull and materials data, and of machinery and electrical equipment, must be submitted for approval in the same way as for classification. Trials of the machinery are to be conducted as specified in the rules and sails are to be hoisted and checked.

CLASSIFICATION OF YACHTS (cont'd)

Standard production yachts will be eligible to receive certification on satisfactory completion of the relevant stages of construction and installation of machinery and electrical equipment as shown hereafter:

(a) **HCC (Certificate of Hull Construction)**

A Certificate of Hull Construction will be issued to the Moulder/Builder, when a construction survey limited to the structural and watertight integrity of the hull has been completed in accordance with Lloyd's Register's requirements and to the satisfaction of Lloyd's Register's Surveyors in accordance with the approved plans.

(b) **MIC (Machinery Installation Certificate)**

When the machinery and electrical equipment have been installed and tested under the supervision of Lloyd's Register's Surveyors, a Machinery Installation Certificate will be issued to the Moulder/Builder.

The above Certification schemes cover materials, approval of plans and construction survey. After completion, no mandatory periodical surveys are required by Lloyd's Register for yachts built under these certification schemes.

Marine Specification Services (MARSPEC)

Lloyd's Register's Marine Specification Services Department can undertake review of specification, plans and surveys on behalf of purchasers or owners of yachts.

Further information on all the services available to yachtsmen may be obtained from:

Lloyd's Register of Shipping,
Yacht & Small Craft Services Department,
71 Fenchurch Street,
London, EC3M 4BS, England.
Telephone: 071-709 9166
Fax: 071-488 4796

Lloyd's Register provides the services outlined on pages ix–x subject to the following terms and conditions:

In providing services information or advice neither Lloyd's Register of Shipping (hereinafter referred to as 'LR') nor any of its employees or agents warrants the accuracy of any information or advice supplied. Except as set out herein neither LR nor any of its employees or agents (on behalf of each whom LR has agreed this clause) shall be liable for any loss damage or expense whatsoever sustained by any person due to any act of omission or error of whatsoever nature and inaccuracy of whatsoever nature and howsoever caused in any information or advice given in any way whatsoever by or on behalf of LR, even if held to amount to a breach of warranty. Nevertheless, if any person uses LR's services or relies on any information or advice given by or on behalf of LR and suffers loss damage or expense thereby which is proved to have been due to any negligent act omission or error of LR its employees or agents or any negligent inaccuracy in information or advice given by or on behalf of LR then LR will pay compensation to such person for his proved loss up to but not exceeding the amount of the fee (if any) charged by LR for that particular service information or advice.

LR, its officers, employees and agents (on behalf of whom this notice is given) shall be under no liability or responsibility in negligence or otherwise howsoever to any person who is not a party to the agreement pursuant to which a certificate is issued in respect of any information or advice expressly or impliedly given by or in the certificate or in respect of any omission therefrom or inaccuracy therein or in respect of any act or omission which has caused or contributed to that certificate being issued with the information and advice it contains (if any).

Lloyd's Register's Tonnage Measurement Service for Official Registration of British Yachts

Tonnage Measurement

Lloyd's Register of Shipping has been authorised by the Department of Transport to carry out tonnage measurement of pleasure yachts under 45 feet (13·7 metres) overall length in the United Kingdom and abroad, for the purpose of obtaining British Registration in accordance with Part I of The Merchant Shipping Act, 1894. The Certificates of Survey are also accepted by Bermuda, Gibraltar, Grand Cayman, B.W.I., Guernsey, Jersey and St. Vincent, B.W.I.

The Society's fees for tonnage measurement surveys in the United Kingdom of yachts in this category may be obtained on request from:

Lloyd's Register of Shipping,
Yacht & Small Craft Services Department,
71 Fenchurch Street,
London, EC3M 4BS.

Fees for surveys abroad are dependent on the accessibility of the yacht and the time spent for the work and travelling expenses incurred.

Requests for tonnage measurement accompanied by the appropriate remittance should be submitted on Application for Tonnage Measurement Form SUR 6A to the address quoted above.

For measurement of pleasure yachts of 45 feet (13·7 metres) and above overall length, application should be made to, Lloyd's Register of Shipping, Construction Services Department, 71 Fenchurch Street, London, EC3M 4BS.

Official Registration

To have a pleasure yacht registered under the British Flag, an Owner requires to carry out the following procedure:

Apply in writing to the Registrar of British Ships at the port at which the yacht is to be registered.

Produce to the Registrar documents of title which establish ownership—a Builder's Certificate or Bill of Sale.

Obtain approval of the pleasure yacht's name from the Registrar-General of Shipping & Seamen, Department of Trade, Llantrisant Road, Cardiff, CF5 2YS.

Arrange for tonnage measurement as referred to above.

Make a Declaration of Ownership.

TONNAGE MEASUREMENT (cont'd)

Arrange for carving and marking for identification purposes to be done, and sign a Declaration to that effect when the work is completed.

Pay the registry fee to the Registrar at the port of registry. This fee is additional to the fee for tonnage measurement.

When these requirements have been met, the Registrar will register the pleasure yacht and issue a Certificate of Registry.

† For a more detailed explanation of the abbreviation please refer to the following section, 'Explanation of Contents' under the heading of the appropriate Column Number.

Explanation of Contents

INCLUDED IN THE REGISTER OF CLASSED YACHTS SECTION

COLUMN 1

LR Identity No.

The six-figure number printed in bold type, prefixed by the letter Y, will be used for automatic data processing and will remain unchanged during the life of the yacht.

Signal Letters

These are assigned by the National Authority with which the yacht is registered.

Official No.

The number in lighter print is the official registered number of the yacht, assigned by the National Authority. In the case of British and Commonwealth yachts it is assigned by the Registrar-General of Shipping and Seamen, Llantrisant Road, Llandaff, Cardiff, CF5 2YS.

COLUMN 2

Former Names

Former names are retained in the *Register* throughout the life of the yacht.

Type

Bermudan Sloop, Bermudan Yawl, etc., are described simply as Sloop, Yawl, etc.

Sail Numbers

Racing Sail Numbers are as supplied by the owners.

COLUMN 3

Master's Certificate

An asterisk * before an Owner's name indicates that he has obtained a Certificate of competency as Master, as issued by the National Authority, notified by Owner.

Port of Registry

In the case of an officially registered yacht the Port of Registry is given.

Home Port

The Home Port is where the permanent mooring of the yacht is located.

COLUMN 4

Net and Gross Tonnages

When yachts are officially registered, the official registered tonnage measured according to the law of the country to which the yacht belongs is published. When the tonnages are printed in italics, they are not those assigned by the country to which the yacht now belongs.

With effect from the 1st June, 1975, new regulations for the measurement for tonnage of British registered pleasure yachts under 45 feet in length overall result in only one tonnage being computed. This tonnage, known as the registered tonnage, is recorded on the second line normally showing a gross tonnage.

Thames Measurement Tonnage

Thames Measurement Tonnage is no longer recorded.

Lloyd's Register Tonnage

Lloyd's Register Tonnage (LT) is used for estimating hull survey fees of classed yachts and it is obtained from the formula:

$$\frac{L(OA) \times B \times D \times 0.45}{100} = \text{LR Tonnage}$$

Where:

L(OA) = maximum length, in feet,

B = maximum breadth, in feet, excluding protrusions,

D = depth, in feet, at amidships measured from bottom of keel or ballast keel if fitted to top of upper deck or gunwhale at side,

or

$$\frac{L(OA) \times B \times D \times 15.9}{100} \text{ where length, breadth and depth are in metres.}$$

COLUMN 5

Dimensions

The dimensions are given in metres and are obtained from Lloyd's Register's Surveyor's First Entry Report of Survey.

Overall length This is measured from foreside of stem to afterside of stern or transom excluding rubbing strakes and other projections.

Water-line length

Breadth The breadth recorded is the extreme breadth.

Depth The depth is taken from the top of floors to top of upper deck beams amidships.

Draft The draft is the maximum draft to bottom of keel.

EXPLANATION OF CONTENTS (cont'd)

COLUMN 6

Year of Build

The completion date is accepted as the year of build. In the case of yachts built under Lloyd's Register Special Survey, the year of build is recorded as follows:

Prior to 1903	Date of Launch.
From 1903-1924	The last date of survey for first entry of classification when completed within six months of launching; otherwise six months after date of launch.
After 1924	Date of completion of Special Survey during construction.

COLUMN 7

Internal Combustion Engines

The brake horsepower or kilowatts of each engine is published. In some instances the diameter of cylinders and length of stroke is shown.

Oil Engine	Indicates an internal combustion engine using heavy oil as fuel.
Petrol Motor	Indicates an internal combustion engine using petrol or other highly volatile oil as fuel.
Paraffin Motor	Indicates an internal combustion engine using paraffin oil as fuel although started up on petrol.

COLUMN 8

✱	This symbol denotes that the yacht was built under the Special Survey of the Surveyors in accordance with Lloyd's Register's <i>Rules</i> , thus ✱100A1.
100A1 Yacht	This class is assigned to wood, composite, steel, aluminium, reinforced plastic and ferrocement yachts built in accordance with, or by standards equivalent to, the relevant requirements of Lloyd's Register's <i>Rules and Regulations for the Classification of Yachts and Small Craft</i> .
100A1 Catamaran or Trimaran	These classes are assigned to catamarans or trimarans built in accordance with Lloyd's Register's <i>Rules</i> and have scantlings and arrangements as approved for such yachts.

Column 8 (cont'd)

1 The figure **1** after the class character denotes that the yacht is well and efficiently equipped in accordance with Lloyd's Register's *Rules and Regulations for the Classification of Yachts and Small Craft* (see Equipment Tables).

— A line thus — after the class character denotes that the full requirements of Lloyd's Register's *Rules and Regulations for the Classification of Yachts and Small Craft* in respect of equipment have not been complied with, but the equipment fitted is sufficient for the efficient working of the yacht.

In the case of yachts classed **R**, the equipment is required to be in accordance with the *International Yacht Racing Union Rules* and the figure **1** for equipment therefore does not apply.

International Rating Class Rules

In the case of yachts designed and intended for racing under the *International Rating Class Rules*, the following characters of classification and notations are assigned:

R This class is assigned to yachts designed and intended for racing under the rules of the *International Yacht Racing Union* for the International Rating Classes and built in accordance with the *Rules for the Construction and Classification of Yachts of the International Rating Classes*, and Lloyd's Register's requirements for this class. All yachts thus designed and built are entered in the *Register of Classed Yachts* with a notation in column 2 reading "Built to International Rating Class metres".

R* This class is assigned to yachts built to the Class **R** but which no longer hold a valid rating certificate because of alterations, and whose scantlings and arrangements are not such that the class **100A1** may be assigned.

†LMC **LLOYD'S MACHINERY CERTIFICATE**

This class is assigned to machinery built under the Special Survey of Lloyd's Register's Surveyors at the maker's works and satisfactorily installed in accordance with Lloyd's Register's *Rules and Regulations for the Classification of Yachts and Small Craft*.

This notation will be assigned when the propelling and essential auxiliary machinery has been constructed under the survey of a recognised authority in accordance with the Rules and Regulations equivalent to those of Lloyd's Register. In addition, the whole of the machinery will be required to have been installed and tested under Lloyd's Register's Special Survey in accordance with Lloyd's Register's *Rules and Regulations for the Classification of Yachts and Small Craft*.

EXPLANATION OF CONTENTS (cont'd)

Column 8 (cont'd)

★LMC

LLOYD'S MACHINERY CERTIFICATE

This class is assigned to machinery which is of standard mass production and is not surveyed at the maker's works but is satisfactorily installed in accordance with Lloyd's Register's *Rules and Regulations for the Classification of Yachts and Small Craft*.

LMC

LLOYD'S MACHINERY CERTIFICATE

This class without distinguishing marks ✱, ✱̄ or ★ is assigned to machinery of yachts submitted for classification, which although not built nor installed under supervision, is found or placed in accordance with Lloyd's Register's Rule requirements for machinery at a Special Survey for Classification, or in those cases where the propelling and essential auxiliary machinery can be deemed to be existing by virtue of having been procured without Lloyd's Register's Special Survey but where the machinery has been installed and tested under survey and found to be acceptable to Lloyd's Register.

Classification of the hull is dependent on the machinery being classed in accordance with the requirements of Lloyd's Register's *Rules and Regulations for the Classification of Yachts and Small Craft*.

Where yachts have been classed without classification of the machinery being required under Rules which have now been superseded, the notations (not classed) and (no longer classed) will remain in the *Register of Classed Yachts*. The notation (no longer classed) denotes that classification previously assigned to machinery has been withdrawn.

UMS

Unattended Machinery Spaces. The yacht is designed so that it can be operated with the machinery spaces unattended and the control engineering equipment has been arranged, installed and tested in accordance with Lloyd's Register's *Rules*.

NE

New Engine, with date of build, indicates the new engine(s) has been accepted for class. If preceded by the sign ✱ it denotes that the engine(s) has been built under Special Survey of Lloyd's Register's Surveyors. If preceded by the sign ✱̄ it denotes that the engine(s) has been constructed under the survey of a recognised authority in accordance with Rules and Regulations equivalent to those of Lloyd's Register. If preceded by ★ this denotes that the engine(s) is of standard mass production. It has not been surveyed at the maker's works but has been satisfactorily installed in accordance with Lloyd's Register's *Rules and Regulations for the Classification of Yachts and Small Craft*.

WITHDRAWAL OF CLASSIFICATION

LR class withdrawn—Owner's request

This indicates that when an Owner requested withdrawal of class from the *Yacht Register Book*, the rule requirements had up to that time been complied with. After one year all particulars will be deleted from the *Register*.

Column 8 (cont'd)

WITHDRAWAL OF CLASSIFICATION

LR class withdrawn—Surveys overdue

This indicates that at the time of withdrawal of class from the *Yacht Register Book*, survey requirements had not been complied with. After one year all particulars will be deleted from the *Register*.

LR class withdrawn—reported defects

This indicates that owing to reported defects, the yacht was not entitled to retain her class in the *Yacht Register Book*. After one year all particulars will be deleted from the *Register*.

Surveys

(The period of surveys due are as prescribed in Lloyd's Register's *Rules and Regulations for the Classification of Yachts and Small Craft*).

ABS	Auxiliary Boiler Survey.
BiS	Biennial Survey, alternating with Special Survey.
CSM	Continuous Survey of the Machinery.
DBS	Domestic Boiler Survey.
DS	Docking Survey
ES	Engine Survey.
GE	General Examination of the yacht with a view to postponement of the Special Survey.
IWS	In-Water Survey
Mchy. Exd.	Unclassed machinery and electrical installations examined at Hull Special Survey.
ModSS	Followed by a term of months denotes that a Modified Survey has been held to maintain class for the limited period stated.
NDB	NEW Domestic Boiler, with date of build. If preceded by ✱ this signifies that the boiler was built under survey of Lloyd's Register's Surveyors.
SS	Hull Special Survey.
TS	Tailshaft Survey, non-continuous liner.
TS(B)	Tailshaft Survey of shaft in bronze, stainless steel, or other similar approved material.
TS(CL)	Tailshaft Survey of shaft fitted with continuous liner.
TS(OG)	Tailshaft Survey of shaft fitted with approved oil retaining glands at aft end of sternbush.

Classed Yacht Owners and Addresses

The Clubs to which Owners belong follow their addresses

- (p.o.) signifies Part owner
- (s.) signifies Steam Yacht
- (m.) signifies Motor Yacht
- (a.) signifies Yacht with Auxiliary Motor

An asterisk * before an Owner's name indicates that he has obtained the Department of Trade and Industry Certificate of competency as Master
